RESPONSE

Honorable Commissioner for Patents
U.S. Patent and Trademark Office
2011 South Clark Place
Customer Window, Mail Stop Non-Fee Amendment
Crystal Plaza Two, Lobby, Room 1B03
Arlington, VA 22202

Sir:

This communication is responsive to the official action of December 22, 2003. Claims 1-30 presently appear in this case. No claims have yet been examined on the merits. The claims have been subject to an election of species requirement. Prompt consideration on the merits and allowance are hereby respectfully urged.

The examiner states that claims 1-30 are generic to a plurality of disclosed patentably distinct species comprising an agent that improves insulin sensitivity in the brain and requires that a single disclosed species be elected

for examination. Applicant hereby elects the species of insulin sensitizers as the species to be examined. If necessary, the ultimate species thiazolidinedione is elected; and more particularly, troglitazone.

It is understood that once the elected species is found to be allowable, a reasonable number of the remaining species will then be fully examined in this case.

Prompt consideration on the merits and allowance of all of the claims now present in the case is earnestly solicited.

Respectfully submitted,
